

INDEPENDENT ADVISORY SEED TESTING SERVICE

We offer an independent advisory seed testing service with a complete range of laboratory seed tests carried out by fully trained and qualified seed analysts.

- Full Germination
- Rapid Seed Viability
- Thousand Grain Weight
- Full Disease Packages for Cereals and Pulses
- Erucic Acid Levels for Oilseed Rape
- Rapid Seed Collection Service

CONFORMING TO THE HIGHEST STANDARDS

We are a member of the National Association of Agricultural Contractors and registered on the Verified Seed Scheme conforming to producing a safe, fully traceable seed processing service to meet the requirements of national quality assurance programmes. We are a British Society of Plant Breeders registered collector of plant royalties.

Anglia Grain Services has depots throughout the area shown on this map, all with good access to main road networks. This allows the company to ensure efficiency, timeliness, and best service to farmers.

Anglia Grain Services

**LEADERS IN OUR FIELD
ENSURES QUALITY
SEED IN YOURS**

MAKING FARM SAVED SEED SIMPLE AND RELIABLE

Established in 1986, Anglia Grain Services is the largest UK processor of Farm Saved Seed, operating a fleet of high specification, revolutionary mobile seed processing units nationwide. Our experienced team of operators, sales and support engineers offer an unrivalled professional service.

Our Farm Saved Seed service allows you to:

- Improve cash flow, gross margin and profitability
- Ensure only bold uniform quality seed is drilled
- Be in control of your seed
- Have full seed traceability
- Flexible processing for optimum drilling dates

OUR MOBILES CAN CLEAN AND DRESS THE FOLLOWING:

- Cereals
- Beans
- Peas
- Oilseed Rape
- Linseed
- Specialist Seeds

EXPERIENCED TRAINED OPERATORS

Sophisticated seed cleaning and chemical treatment machinery will only work efficiently if set up by skilled operatives. They are also competent in the safe, precise and accurate application of seed treatments. Anglia Grain Services employ fully trained, experienced operators to ensure correct, precise machine adjustment and quality control.

WHAT MAKES OUR MACHINES INDUSTRY LEADING?

Before

1 Conventional Screen & Aspiration Cleaner

Law Denis D200 - Compact high capacity seed dresser, incorporating double aspiration, scalping and screening.

3 Gravity Separator

High capacity gravity table separators remove shrivelled and diseased grains to produce a superior seed sample.

2 Seed Elevators and Conveyors

Our bespoke belt and bucket seed elevator and conveyor system ensures seed quality remains by minimising physical damage.

4 Precision Batch Treaters

Our batch treaters precisely apply seed treatments to bold viable seed, complying with environmental stewardship.

Cleaned

Treated

Anglia Grain Services design and fabricate all our specialised seed processing units within our own purpose built workshops.

5 Anglia Grain Power

Each mobile seed processing unit is self-contained and powered by a specially designed 3 phase generating set.

6 Bag Support & Roller System

This allows a safer and more seamless removal of bulk bags. Each machine also includes trading standard approved bulk bag weighing system.

Control the quality of your seed, Contact one of our BASIS qualified staff to discuss the best seed treatment to meet your requirements.

WHY DO OUR GRAVITY TABLES SEPARATE US FROM THE REST?

- Seeds are separated by specific weight
- Advanced purity & germination
- Uniform bold quality seed samples giving greater seed rate accuracy when drilling
- Greater root mass ensuring better water and nutrient uptake
- Thicker vigorous stems producing stronger resilient plants
- Larger leaf area maximising plant photosynthesis
